AMANDA L. RIGGS

ENVIRONMENTAL DATA SPECIALIST & PROJECT COORDINATOR

Chocowinity, NC | 252-320-2482 | amanda.l.riggs@outlook.com
linkedin.com/in/amanda-riggs-a60a7b9b | github.com/riggsa21

PROFESSIONAL SUMMARY

Award-winning Environmental and Data Operations professional combining an **M.S. in Geography** and a **B.S. in Environmental Studies** with a verified track record in independent project delivery, technical writing, and workflow automation. Published researcher and competitive grant winner skilled in translating complex ecological data into executive-ready dashboards and technical reports. Deeply proficient in high-precision laboratory analysis, quality assurance (QA/QC), and cross-functional team coordination. Exceptionally fast at mastering proprietary corporate software, risk modeling tools, and technical data pipelines.

TECHNICAL & ANALYTICAL SUITE

Ecosystem & Risk Modeling: InVEST (Ecosystem Services Assessment Suite), EPA Environmental Pollutant Models, Remote Sensing, Raster/Vector Spatial Analytics

Data Visualization & Business Intelligence: Tableau (Interactive Dashboards), MS Excel (Advanced Analytics, Data Cleaning), ParaView (Scientific Visualization)

Spatial Data Science: ArcGIS Pro, QGIS, ArcPy Scripting, Database Architecture, Geoprocessing Automation

Project Operations & Compliance: Technical Writing, Peer-Reviewed Report Synthesis, Grant Management, Quality Assurance / Quality Control (QA/QC), Milestone Tracking

PROFESSIONAL & RESEARCH EXPERIENCE

Independent Geospatial Visualization & Quality Reviewer **March 2026 – Present**

Remote Contract

- Evaluate massive datasets, scripts, maps, and scientific visualizations for accuracy, reproducibility, and rigorous compliance with complex private sector specifications.
- Audit data processing pipelines, troubleshoot multi-layered technical workflows, and deliver structured, actionable feedback to optimize project outcomes.
- Develop and revise corporate project instructions and 20–25-item analytical assessment rubrics to ensure data integrity across cross-functional teams.

Founder & Principal Analyst **September 2026 – Present**

GeoSite Intel, LLC — Remote / NC

- Design and execute comprehensive technical workflows integrating elevation, parcel, land-cover, flood, wetland, soil, and critical utility infrastructure data.
- Automate complex data preparation, spatial overlays, and drainage analytics using Python and QGIS to reduce project delivery times.
- Author professional documentation, articulating methodology, baseline assumptions, and technical results for diverse corporate stakeholders.

Graduate Researcher (Urban Ecosystem Services) **August 2023 – May 2025**

East Carolina University — Greenville, NC

- Spearheaded a multi-phase research initiative investigating nutrient export and stormwater retention amid urban development.
- Integrated expansive environmental datasets using ArcGIS Pro, InVEST, and Tableau to translate ecological variables into high-impact maps and figures.
- **Secured a peer-reviewed publication** in *Southeastern Geographer* by meticulously documenting data sources, predictive model limitations, and scientific findings.

Marine Biology Researcher (URCA Grant Winner) **Spring 2023**

ECU Biology Department — Greenville, NC

- **Awarded the highly competitive Undergraduate Research and Creative Activity (URCA) Grant**, successfully writing technical proposals that secured funding for personal research and laboratory operations.
- Executed high-precision biological pathology and micro-dissections on commercial shrimp populations from the Pamlico Sound and Atlantic fisheries to isolate Black Gill disease vectors.
- Managed rigorous laboratory data logs and strict QA/QC standards, providing the critical baseline data utilized to assess environmental impacts on commercial marine industries.

Graduate Teaching Assistant (GIS & Atmospheric Science) **August 2024 – May 2025**

East Carolina University — Greenville, NC

- Coordinate operations for GIS and atmospheric science laboratories, guiding students through complex spatial-analysis, geoprocessing, and data visualization pipelines.
- Review technical deliverables for accuracy, troubleshooting software friction points, and communicating critical workflow corrections clearly.

MANAGEMENT & OPERATIONS EXPERIENCE

Store Manager **December 2012 – August 2021**

Chapel Hill Subway Group Inc. — Chapel Hill, NC

- Directed daily business operations, staff scheduling, inventory optimization, and cash controls while maintaining meticulous administrative documentation.
- Supervised, trained, and mentored cross-functional teams, balancing strict service quality standards with corporate operational requirements.

EDUCATION & CREDENTIALS

Master of Science (M.S.) in Geography **May 2025**

East Carolina University, Greenville, NC | **GPA: 4.0**

Graduate Certificate in GIS Science and Technology **May 2025**

East Carolina University, Greenville, NC

Bachelor of Science (B.S.) in Environmental Studies **May 2023**

East Carolina University, Greenville, NC | **GPA: 3.595, Cum Laude**

Gamma Theta Upsilon International Geographical Honor Society (Inducted 2024); Specialized Esri Certifications in Python for Raster Workflows, Advanced Geoprocessing, and Image Classification.
